

A PEACEFUL ACT OF WITNESS

Tuesday 10th February: Shenstone: 14.30 – 15.30 pm

Public Worship at UAV Engines Ltd, Lynne Lane, Shenstone.

The UK government is following the US in using armed drones to kill remotely and assassinate 'targets' regardless of civilian casualties.

There is an estimate of 2,600 to 3,400 people killed by drone strikes in Pakistan, only 2 percent of whom were on the U.S. government's high-value target list.

This factory makes engines for the 'Watchkeeper' drones used by the UK military.

DRONES: MADE LOCALLY KILLING GLOBALLY!

A Coach will be provided to take Queen's students to Shenstone Railway Station

At Shenstone station (about 2.15 pm) we will meet any who wish to make their own way there and walk together to the factory for an act of worship and witness with liturgy and a simulation of life with military drones.

Please dress in striking clothing especially academic or clerical gear if you have it!

The vigil will end in time to return to the station for about 3.45pm

'Nation shall not lift up sword against nation, neither shall they learn war any more.' Isaiah 2: 4

This event is organised by The Queen's Foundation for Ecumenical Theological Education; Friends of Sabeel and Pax Christi. For more info on Drones please visit: www.dronewars.net
