fly  
kites  
not  
drones

The text 'fly kites not drones' is written in a multi-colored, hand-drawn font. The word 'fly' is in blue and orange. 'kites' is in blue, orange, and purple. 'not' is in blue and orange. 'drones' is in blue, orange, and purple. A red and blue kite is at the top right, with red arrows pointing downwards from it. A red drone icon is positioned between 'not' and 'drones'. The background features faint, stylized drawings of kites and a drone.

Take a kite to your park,  
the beach,  
town centre,  
a military base  
and fly it with friends,  
to celebrate Nao Roz,  
Persian New Year,  
21st March.

This is the 5th year of the campaign, which was started by young kite flyers in Afghanistan and now inspires people around the world. Military drones know no borders and make war too easy.
